ABOUT DIVAS BUILD FUTURES

Divas Build Futures Inc is a non-profit 501c3 organization geared towards the positive uprising in our girls to young women by empowering and educating them into their greatest futures.

We are located in Dallas Texas, by way of Collin County. We provide wide varieties of engaging and encouraging activities, mentorship workshops and programs girls can use throughout their everyday lifestyle. We are productive pillars in the community providing 2nd chances and patience when it comes to our youth girls. We show our mentors the importance of pouring history and wisdom into our youth girls, teaching them home economics, trade studies and educating on the importance of their mental health. We focus our girls on the values of their character, charm and class.

DBF believes in engaging our girls in opportunities to become active successful members in their community. Young girls who serve in their community become more responsible with higher self-esteem and resilience. Volunteering helps girls gain new skills necessary for the job market such as leadership, communication skills, dependability, time management and decision making.

DBF community service & volunteering programs enables young girls to acquire career & life skills and knowledge, as well as provide a service to those who need it most.

OUR MISSION DIVAS BUILD FUTURES

To empower & educate girls to achieve their life goals through all adversities by equipping them with the essential resources in home economics, etiquette & education. Providing 2nd chances to girls and young women ages 10-25.

BEFORE: *Founded 2014-* DBF Began working with the community by mentoring girls in hygiene and etiquette. DBF started with 13 participants and received volunteer of the year award from the Victorville fall festival for helping girls in etiquette and raising money to provide clothing, school supplies and hygiene items.

NOW: *7 years-* 2021 DBF has partnered with 31 organizations to help young girls. DBF is at the total of over 800 participants. 40 volunteers and 25 mentors/life coaches. DBF has received recognition in D-magazine, Plano Profile, voyage magazine and Plano pulse magazine. In 2019 DBF opened DBF ALL GIRLS YOUTH Academy servicing the city of Plano, Texas and surrounding cities. DBF youth center provides housing assistance, mentoring, a clothes closet boutique, computers for resume building and employment searching.

FUTURE: *8-10 years-* DBF plans to open an All-Girls Enrichment Academy servicing girls ages 10-25. The academy will consist of diploma/trade programs, transitional housing, women's history, home economics, sports and a variety of counseling services for all needs. We will have smaller classrooms for the 1 on 1 security of knowing and meeting our girls needs. Most importantly we will have a green house and agricultural program teaching the importance of growing your own crops and nurturing small animals. We are purchasing 10 acres of land to complete the project.

DIVAS BUILD FUTURES INC. ACADEMY

“Where girls are nurtured into young women”

Purpose Statement: DBF Academy provides opportunities for at-risk girls in a therapeutic setting to overcome life-controlling issues. Learning and realizing life at its full potential and focusing on their academic challenges. We are bridging the gap in our society, where girls are falling behind in a traditional classroom setting by placing them in smaller classes to be heard and privately tended to. Striving towards classroom success and/or college and career readiness.

DBF has mentored over 800+ young ladies and over 300+ volunteers. DBF has donated cars, provided rental assistance, became big sisters to girls in need of extra support and provided classes and volunteering opportunities to many families. Divas Build Futures Inc. has molded its program into "DBF All Girls Enrichment Academy". A housing and educational school for girls. In 2022, DBF will begin the build out of the 10+ acre DBF All Girls Enrichment Academy & The Ann Brown Apartment Housing. Registrations are subject to begin November 20, 2022.

DBF All Girls Academy will provide a distraction-free, structured environment where girls who may be struggling in a traditional school setting, can focus most of their time on academics, social and mental health. Every girl typically learns on different educational paces or levels than their peers. This gives girls the opportunity, in a structured and monitored environment, to get caught up with their academics and have the nurturing needed to get through their everyday lives. Ages 10-17 Minor 18-25 young adult.

Many girls who have struggled in the standard education system find they are academically inclined or slightly behind their peers. We also encourage our girls to complete with 2 trades, 1 creative art, Home economics 101, real estate and a savings of at least 2,500.00 leaving the program. An academic plan will be created for each young lady and will vary according to each girl's individual academic goals. A young ladies progress will be monitored through our DBF mentoring program.

Our program allows for an education & mental health plan designed specifically for your girl's needs. We are purposely designed for a smaller student body, 12 girls or less. We focus on grades 7-12 and young adults starting at age 17-25. Our girl's education & mental health plan will be designed to make sure that she is challenged to complete the courses needed to get back on track academically and mentally.

Goals are set on a daily basis so that there is immediate feedback to the young lady to know how she is progressing. The young lady will have every opportunity for success in school if they are willing to put forth the effort. Success with our program usually takes a period of 2 months for the young lady to accept being in a program.

SPONSORED PARTNERSHIP LEVELS

Girls deserve the chance to be what ever they want, no matter where they are from or what they have been through .We will provide the opportunity to grow from a place where mental health will be acknowledged and practicing positive habits to aid them to the next level in their lives .

PARENT TESTIMONY

Hello everyone, I am Monica Santiago, mother of Jasmine Santiago. I am writing this testimonial with lots of love and gratitude for all the support and great services that DBF has provided for my daughter In the past five years in this prestige program. Jasmine has achieved many goals and milestones in her tenure at Divas Build Futures Inc. She is doing a great job striving forward to overcome her challenges with low self esteem and past trauma.

Since that first interview in 2018 with Ms Asha Scott, she provided Jasmine the opportunity to become a member of Divas Build Futures Inc and a part of a sisterhood. She had a difficult time communicating with her peers and opening up and speaking her mind in the beginning but gradually opened up over time. This was all possible due to the staff at DBF and the wonderful volunteers that dedicate their time, patience and strength to commit to our children. Thank you from the bottom of our hearts.

Jasmine will finish and graduate from High school in 2024. We feel good about her transitioning into young adulthood, and a respectful young lady . As a family we hope that all girls who are blessed to be a part of DBF will gain greatly as we have.

We are looking forward with facing new challenges and endeavors but with the grace of God we'll surpass these and Jasmine will continue her great progress.

Monica Santiago

DIVA TESTIMONY

Being apart of DBF has taught me to never give up no matter how hard something becomes. Knowing that I am way more capable than I give myself. DBF has laid down the foundation for me to get a head start in life. From teaching me about credit to applying for my first apartment. I was able to take everything I've learn and make it into reality. I am forever grateful to be apart of this amazing legacy.
